Subject: Status of Five-Year Bond Review, Bonneville Quarries, Grouse Creek
Mountain Quarry, M/003/031, Box Elder County, Utah

Dear Mr. Bown:

After reviewing your file I found that the bond for the Grouse Creek Mountain Quarry had been recalculated on April 4, 2003 with an escalation date of 2008. On April 25, 2003, a letter was sent to you informing you that \$15,600 would be required to simply escalate the bond to year 2008. You were informed that you could have your surety company furnish a rider increasing the existing bond from \$12,500 to the required amount. The submittal of this \$15,600 bond has not been completed to date.

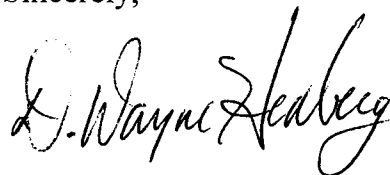

On August 19, 2003, we requested that you furnish updated maps so a review could be performed. Because this permit application was recently reviewed, the submission of an updated map detailing the disturbances at the site for escalation purposes is no longer necessary.

In order to complete your recent amendment to your Grouse Creek Mountain Quarry permit, the submission of a bond in the amount of \$15,600 is necessary. Please submit the required bond within 30 days or by May 29, 2004. Failure to do so could result in the loss of your permit to mine in this quarry and a possible order to reclaim the site.

If you have any questions or cannot meet this timeframe, please call me at (801) 538-5286 or Doug Jensen at 538-5382 with justification to extend the deadline for submittal.

Sincerely,
